What is W7? <https://women7.org>
 Women7 (W7) is a G7’s official engagement group of civil society organizations that come together to promote proposals on gender equality and women’s rights within the G7 process. Building on feminist principles of intersectionality and inclusion, W7 aims to bring together voices from civil society around the world to critically reflect on and inform G7 outcomes. Its objective is to ensure that G7 leaders make concrete political and financial commitments that can have a tangible, lasting and transformative impact on the lives of women and girls in all their diversity.
